PONENT EXPLORERS

DISCOVER “PONENT”

This project was born from the desire to showcase western Catalonia through history, gastronomy, and cycling tourism. With over four years of experience in France and the Costa Brava, I am launching this personal project in the land where I grew up: LA TERRA FERMA.

PONENT EXPLORERS

turisme cultural - cicloturisme

ABOUT Me

I studied history, but I quickly realized that what I truly enjoyed was telling it on-site and engaging with people. After working for two years in France as a guide, I moved to Girona, where I worked as a cycling tourism guide for various international agencies while studying tourism and wine tourism at the Girona School of Tourism.

I am currently back in Lleida, promoting and showcasing Ponent through tourism.

CYCLING EXPERIENCES

I see cycling and heritage interpretation as a form of sustainable tourism that helps to boost the social and economic development of our region. We offer trips, routes, and we can organize events, designing the itineraries by assessing resources, businesses, etc., to ensure a fun and safe experience for participants while also creating a positive impact on the local area.

Cultural TOURISM

Providing high-quality service has been a priority since the inception of this project.

That is why I am a certified tour guide fluent in Catalan, Spanish, English, and French.

I am continuously training to stay up to date. Tourism, like many other sectors, is constantly evolving and changing.

BIKE TRANSPORTATION LOGISTICS

A crucial part of organizing cycling events is **logistics**. That's why we have vans for up to 9 passengers and a trailer with a capacity of up to 10 bicycles, ensuring safe and comfortable transportation.
